---

Bachelor of Information Technology graduate with a strong understanding of front-end development and high enthusiasm for web technologies. Skilled in building responsive user interfaces (UI) using HTML, CSS, JavaScript, and frameworks and libraries such as React, Tailwind CSS, and Bootstrap. Have an understanding of backend development with Node.js for system integration. Have problem-solving skills in optimizing web performance and accessibility. I am used to working in teams and individually in developing responsive and user-friendly web-based applications. With a high enthusiasm for learning, I always try to keep up with the latest technological developments to create innovative and efficient solutions.

---
